BUILDERS OF

Fine Carriages, Buggies & Spring Wagons,

FARM, FREIGHT, ORE & TRAVELING WAGONS,

—ALSO REPRESENTING—

The McCormick H. M. CO'S NEW STEEL BINDERS, introduced here in 1885, are conceded to be far ahead of all competitors, combining as they do beauty of design, superiority of workmanship, excellence of finish, durability and ease of management.

The COMBINED REAPERS and MOWERS, DROPPERS and SINGLE MOWERS are unequalled.

The CASE "AGITATOR" is acknowledged to be without a competitor, as the best of the past—more than trebling those of all other threshers—will prove.

The WOODBURY POWER is the most durable and lightest running horse-power known.

The SOUTH BEND CHILLED PLOW, although not introduced into this market until long after other styles of Chilled Plows, is fast crowding them out and assuming the position of the leading Chilled Plow.

The WEIR SULKIES, HAND FLOWS and HARROWS are known throughout the length and breadth of Utah as first-class goods in every particular.

The BOSS SICKLE GRINDER is a tool every farmer who has a mower needs and cannot afford to be without.

We shall carry a full and complete stock of repairs for above goods, not only for those of this year's manufacture, but for those sold in previous years, so that any farmer having any machine or plow of the line mentioned can get any repairs without needless trouble or expense.

All parties ordering extras for machines bought in previous years, are especially requested, when ordering, to give the number or letter on the article wanted.

We also keep a full line of Tents, Wagon Covers, Bakes, Machine Extras, Barrows, Wagon Extras, Robes, Whips, Lamps, Rubber, Cloth, Duck, Washers, Couch Covers, Farm and Carriage Harness.

The Business Changes of the Past Week.

ORE AND BULLION RECEIPTS.

Z. C. M. I. Disbursing—Deseret Bank
Dividend—Horn Silver Deal
—Bannock.

Z. C. M. I. will commence the distribution of its \$30,000 dividend during the coming week. The Deseret National Directors also hold their meeting and it is safe to say the quarterly dividend of 5 per cent. will be declared. Asked as to the matter yesterday, Mr. Hills, the cashier, said he never forestalled the action of the directors; the regular dividend had been earned, however, he added.

Mining Outlook.

The outlook for the mining interests in Idaho was never so promising as at present. In eight out of fifteen counties in Idaho, says the *Scientific Press*, there are prosperous mining camps and as the work of prospecting and developing goes on, each year adds to the number of paying mines. Until recently Idaho has been isolated, but with three railroads now traversing the Territory, the mining camps in all the counties are easily reached.—*Inter-Idaho*.

Bannock.

The Herald's recent article on this company's prospects has been the cause of both growls and felicitations, the growls coming from those who were buying, and the felicitations from those who were on the point of selling. Messrs. Groesbeck and James, who are comfortably loaded, are authority for the statement that the stock went up a dollar next day, and they added "there was nothing but the exact truth stated either." Sales have been frequent at \$3, but no large blocks are to be had under \$5, so the sheriff says.

Horn Silver.

There is still a dearth of news from the mine, but local confidence apparently remains unshaken. The Deseret bought 1,000 shares for a customer during the week.

New York Markets.

Alice is still quoted at \$1.50; Moulton is off the lists; Stormont sold at 15c.

Ontario.

The one-hundred and nineteenth dividend of \$75,000 was paid in New York on Friday. This magnificent company has now returned to its stockholders \$7,325,000.

New York Stock Market.

New York, May 1.—Governments dull and steady.
Stocks, unusually feverish and irregular, with alternate spasms of activity and dullness. The market was controlled almost wholly by the news regarding the strike at Chicago, and these were nearly all of an unfavorable character. Both bulls and bears concede that if the country is to be thrown into general disorder securities must go much lower. While news this morning from St. Louis and from this city was favorable, that from the northwest was the reverse and more serious than has been published since the beginning of the strike on the southwest system.

The lowest prices were reached about 1:30 o'clock, although the market was comparatively dull. The movement was decidedly irregular from that time until 3 o'clock, and in some cases a reaction of nearly 1 per cent. was established. The result of the day's operations is, however, extremely irregular, several prominent stocks showing little or no change, while the majority of the list is down from 3/4 to 1/2 per cent. The market closed irregular, but about steady for a majority of the lists. Comparing prices this evening with those of one week ago, everything is lower. The heaviest decline has been made by the New York Consolidated Gas Co.; Pacific Mail is down 3/4. Total sales for the week were 1,522,853 shares, against 922,845 last week.
